## OHM Professional School

### OHM Professional School

The OHM Professional School (OPS) of the Nuremberg Institute of Technology (Nuremberg Tech) is your partner for goal-oriented academic training in the Nuremberg metropolitan region. The OPS developed out of the Management Institute of Nuremberg Tech and the *Verbund Ingenieur Qualifizierung gGmbH*. Each institution looks back on more than 15 years of experience in continuing education.

Based on a comprehensive academic foundation, the OHM Professional School provides practical expertise within the framework of professional development. Our expertise in technical and economic fields are emphasized in our master's and bachelor's degree programs, internationally oriented MBA courses in General Management as well as modular certificate courses, seminars, conferences and colloquia for specialists and executives.

Selected teams of university professors and top lecturers from the business world guarantee the effective linking of theory and practice, thus ensuring the transfer of state of the art knowledge.

## International MBA Program

# OHM MBA General Management

## Program

The OHM Professional School is dedicated to educating global leaders through its MBA programs in General Management.

The MBA is characterized as a highly practice-oriented program which not only emphasizes the importance of hard skills and management expertise, but also focuses on managerial soft skills such as personal development, cross-cultural understanding, socio-intercultural competence and business ethics.

The MBA program has two main tracks: MBA for Financials (CMP-F) and MBA for Non-Financials (CMP-NF). Both tracks are offered in full-time and part-time modes:

- 1) MBA for Financials (CMP-F) is an MBA program designed for applicants with educational background in management or business related studies.
- 2) MBA for Non-Financials (CMP-NF) is an MBA program designed for applicants with educational background in non-management related studies, e.g. IT, architecture, engineering etc.

The difference between the two tracks is that CMP-NF students start their program by taking 7 basic management courses in their first semester.

In addition to management expertise, OPS students develop essential soft skills such as social and intercultural competence and self-development as well as deepen their understanding of business ethics in our MBA program.

### Who should opt for OHM MBA Program?

Preparing students for the global economy is the top priority of the OHM Professional School. The MBA program is designed for experienced managers from all industries, as well as scientists, engineers, lawyers and other professionals with a university degree (bachelor or master) and at least two years of relevant work experience.
